KUNYU FENCING

Orange Safety Fence - Site Check Sheet

Specification / review sheet | 2026-11-04

Complete against the approved site layout. This sheet does not prescribe universal spacing, embedment or snow-fence setback.

Check	Record / sign-off
Site and reviewer	Site: _____ Date: _____ Reviewer: _____
Boundary and access	Approved line, corners, joins, gates and access: _____
Supports	Selected post and fixing specification: _____ Stability and ground condition checked: _____
Mesh	Correct pattern, roll dimensions and condition: _____ No torn, stretched or split strands: _____
Joins and corners	Both roll ends supported; overlap / fixings match layout: _____
Take-off	Rolls: _____ Posts: _____ Fixings: _____ Overlap, cutting and spare allowance: _____
Before use	Entrances clear; supports and fixings checked: _____
After disturbance	Weather / work event: _____ Damage and corrective action: _____
Storage / reuse	Mesh inspected and dry, protected storage arranged: _____

Flexible safety mesh marks a visible boundary. It does not provide vehicle restraint or fall protection. Snow-control projects require their own wind, terrain and drift-storage assessment. Review the full installation guide at kunyufencing.com/en/fence-articles/how-to-install-orange-safety-fence.
